4	Steps taken to ensure smooth functioning of operations	We have tried our very best to fight with COVID -19 and we have strictly followed the governments guideline like we have closed our office and project site due to lock down, since maximum labourers left at the start of the lock down thereby leading to social distancing at our work place, further we are also taking proper measures like giving masks to workers, providing hand sanitization facility, doing floor sanitization at regular interval, temperature check at entry points and medicine examination.
5	Estimation of the future impact of CoVID-19 on its operations	The future impact of COVID-19 depends up on the future spread of COVID-19 which simply means that if its spread could get controlled in near future we could try to normalize our operations soon but on the other hand if the same would further spread on a larger scale like in other countries, then it could take years to get back to normalcy.
